

Myth Busters

- **Our contracts are not volume-related; we receive virtually the same revenue whether there are 100 or 1,000 prisoners in our jails.**
- **Most of our prison workshops are to train prisoners; only a few have commercial contracts. Any profit generated from these workshops must be reported and profits above an agreed level must be re-invested in the prison solely for the benefit of prisoners.**
- **Our ethical principles guide our Justice business to ensure that we only provide services where we can make a positive difference to prisoners' lives and where the country's prison system matches our values.**
- **We fully manage only 6 prisons in the world. There are over 120 private prisons in the US alone.**
- **Our global Justice revenues are less than a third of the revenues that the biggest private prison operators make in the US alone.**
