

## **Survey Snapshot Highlights**

**Below is a snapshot of key findings from our 2022-23 Student Lifestyle Survey.**

Dining can be improved by extending access-convenience-to healthy foods.

Schools can fill critical gaps by coaching students on essential life skills and helping them explore meaningful future career paths.

Schools have an opportunity to be an ally with resources to proactively manage students' mental health and feelings of anxiety.

Students are looking for campus-wide events to build community and get students out of their comfort zone.

Increasing tech-enabled solutions can expand engagement with campus dining.
